3M Architectural Fasara Decorative Glass Finishes

Define
your space,
express your style

For more information call 1.800.295.8468

Distinctive films for interior design

3M™ Fasara Decorative Glass Finishes have been designed to offer innovative new ways to manage space. When applied to internal glass surfaces, these films create a serene etched-glass appearance, renovating cold plain glazing and lifting the whole building's look.

At a fraction of the cost of etched-glass, Fasara Decorative Glass Finishes are perfectly suited for interior glass partitions or the inside surface of windows. Available in several textures with different light transmission and reflection, 3M Decorative Window Films Fasara can be used to create a more private atmosphere or a more dynamic aesthetic.

FASARA films can be applied in many areas for many applications, which include:

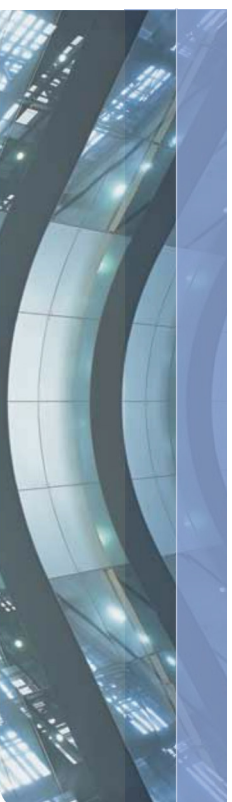

- Conference rooms
- Private offices
- Lobbies
- Shop & store fronts
- Glass partitions
- Verandas
- Residential settings

Versatile solutions

3M Fasara Decorative Glass Finishes, made of thin durable polyester with a decorative matt surface, are intended for use on interior glass and the inside surface of exterior windows. With expected Durability of up to 10 years* and a 3M Warranty for 5 years*, once applied the film functions as permanent solutions but can be easily removed or repositioned as needs or styles change.

Fade reduction

UV rays account for 40% of the cause of fading. Fasara Decorative Glass Finishes eliminate up to 99% of harmful UV rays thereby significantly reducing fading.

3M™ Fasara Decorative Glass Finishes

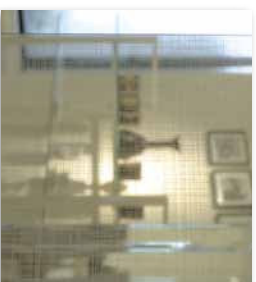

Matt & Opaque films

Can be applied to let light in but create privacy while blocking 99% of UV and reducing glare

Rice Paper effect films

Are fantastic on partitions, for a textured appearance more inviting than the plain opaque films

Prisms films

Protect your privacy with the latest and most stylish elements of the FASARA range

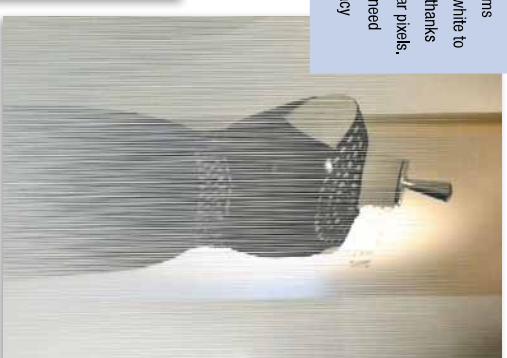

Crystal & Frosted films

Are designed to break up the light and give a very soft warm feel to interiors

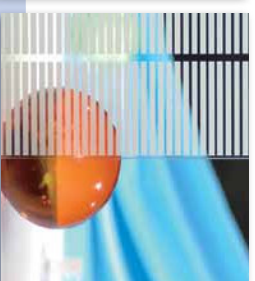

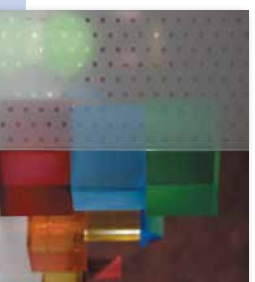

Gradation films

These innovative FASARA films transition from fully opaque white to clear over the full roll width, thanks to a varying density of circular pixels. Perfect for areas where you need high level light but total privacy

Dots & Stripes films

Give a high tech appearance to your property, with different patterns offering circles or squares, vertical or horizontal stripes on clear, opaque or black film

Enjoy enhanced privacy and aesthetics with innovative design solutions

*Refer to Product Bulletins for Durability and Warranty
