3M Glass Finishes

A World of Glass Finishes
for your Home or Office

3M Glass Films

The 3M range of Decorative Glass Films form an essential and distinctive component for new space design in urban India. Ease of application, low-maintenance and adaptibility for unique layouts and interfaces make this indispensable for modern interior decor. The 3M glass films allow one to communicate subtle messages, provide privacy and infuse a touch of style, while also ensuring brightness and enhanced safety. Above all, these 3M films lend a sense of sophistication, matched with unparalleled quality in the Indian market.

In addition to this range of decorative and safety films, 3M also has a premium range of high quality sun control films. These films provide substantial energy savings - they block out infrared and ultraviolet radiation.

Together, these films match sophisticated aesthetics with high-performance specifications, tailor-made for installations in India.

Practical. Functional. Elegant.

3M™ Fasara™ Glass Finishes

Fasara™

The Fasara range of designer glass films is the most premium offering in the world of glass decor. International designs and patterns make Fasara the most fashionable, dependable and popular choice for architectural requirements faced with inherently Indian constraints and the demand for lasting strength, reduced upkeep and a singular sense of style.

Fasara's high-tensile and flexible polyester film lends itself equally to indoor and outdoor applications.

In addition, Fasara ensures high UV-resistance and is also shatter-proof when applied to an entire surface. Fasara is the answer to high-performance design & decor requirements, combining refined aesthetics, privacy & safety.

Why You'd Love This Product

- Durable, easy to clean and maintain
- Scratch resistant, shatter resistant
- Creative mix & match options to produce new patterns
- Can be applied on site, flexibility to change
- Versatility with over 50 global designs
- Low maintenance
- Reduces fading on fabrics and blocks out UV light
- Easy on eyes, creates comfortable work areas
- Optimising workspace environmental conditions
- No hassles post installation - complete peace of mind

The Technology Behind It

- High-grade, rigid and tough polyester film
- Greater thickness and strength holds glass pieces together
- Pre-pattern, self-adhesive film
- UV Inhibitors block out 99% of ultraviolet light
- Low gloss surface reduces glare from natural/artificial lighting
- Design-specified opacity maximizes privacy & light transmission
- Warranty of 3 years

3M™ Chakra™

The 3M Chakra Glass Film is an economical PVC glass film developed for indoor usage.
The range offers a low-gloss surface that reduces glare, and a higher level of opacity than typical glass films available in India, designed to impart the graceful look of frosted glass.
The 3M Chakra films can also be electro-cut to give you a variety of simple, clean designs.

Why You'd Love this Product

- Installation on site
- No need to pre-plan or remove glass surface
- Very easy wet application on glass
- Longer life than other glass films in this price range
- Several simple design possibilities
- Readily available across India

The Technology Behind It

- Translucent PVC films
- Low-gloss surface
- Low shrinkage
- Can be electro-cut
- Acrylic, pressure-sensitive adhesive

3M™ Sun Control Films

Prestige™ (PR70) & Night Vision (NV15) Films

The 3M Sun Control range of films combine the conventional advantages of 3M Glass Films with the values of sustainability, enabling lower energy bills, and achieving uniform consistency across low and high sunlight spaces - a critical factor in the Indian context.

Prestige films give you an elegant clear appearance on the exterior, while night vision gives you a beautiful mirror finish on the exterior.

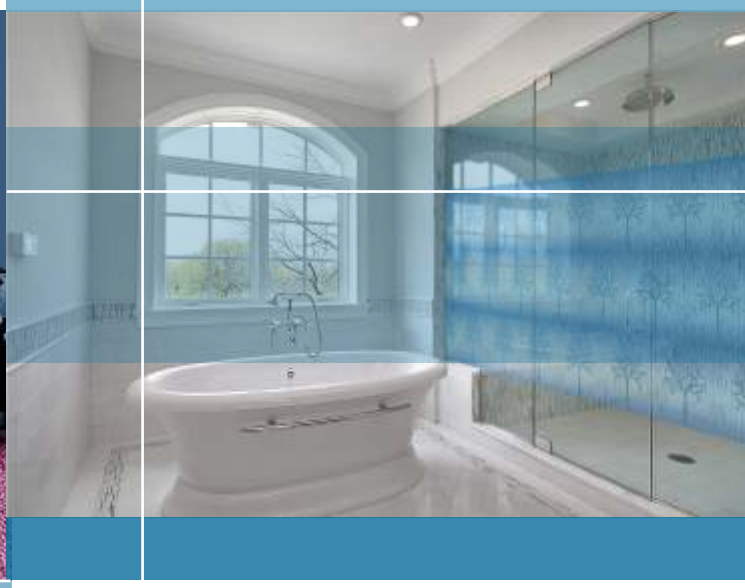
A popular choice amongst designers and architects in India, the 3M Sun Control range gives you the power to make a positive impact on the environment, by reducing heat factors to conserve energy. The 3M Sun Control range is noted for enhancing user comfort, and is a trusted agent for protecting interior designs, as it also works to slow down the ageing of interior products in a designated area.

Why You'd Love this Product

- Great heat rejection provides energy savings & improved comfort
- Prestige™ (PR70) is a clear film, while the Night Vision (NV15) film gives a beautiful mirror finish on the exterior
- Extends the life of furnishings by rejecting UV rays, the single largest component of fading
- Provides shatter resistance (gives you safety from flying glass pieces)
- Reduces glare and eye discomfort
- Superior overall finish to match with your interiors' aesthetics

The Technology Behind It

- High UV rejection
- High heat rejection
- High light transmission
- No metal elements
- Less reflective, providing clarity with no haze or iridescence
- Warranty of upto 3 years



3M TOUCHING LIVES IN INDIA FOR 25 YEARS

3M impacts businesses and everyday experiences in more ways than you can imagine.

With 88,000 employees worldwide & over 55,000 products, the 3M ethic is to innovate with the purpose of enriching lives. 3M has been in India for over 25 years with five leading market businesses, and as a pioneer in glass films and the domestic architectural market.

Based in Minnesota, USA, the 3M vision was set over a 100 years ago, and today, 3M products touch the lives of one in every four people, around the world.

This is the power of a $30 billion global technology company that is now easily at hand for customizable, and specifically Indian needs.
